Projects & Experience

RESTAURANT

- Built a full-stack restaurant web app where users can browse menu items and add them to a cart, similar to Zomato's ordering flow.
- Developed REST APIs with **Node.js** and **Express.js** and stored menu and user data in MongoDB for reliable CRUD operations.
- Implemented user authentication and protecting routes using Firebase Auth, enabling secure signup/login personalized carts.

Tech: React.js, Node.js, Express.js, MongoDB, Firebase, HTML, CSS, JavaScript

TODO-LIST APPLICATION

- Built a task Management app with features like adding, editing, and deleting tasks.
- Implemented browser-side persistence using **Local Storage**, ensuring task data survives page refreshes.
- Designed a clean, minimal UI using **HTML, CSS, JavaScript** with smooth DOM manipulation.

Tech: HTML, CSS, JavaScript.

MOVIE BROWSER

- Developed a movie search platform using **React.js,** integrating with an external movie database API to fetch live data.
- Implemented search filters and dynamic rendering to give users instant results with movie details.
- Used **Bootstrap 5** for a modern, responsive UI layout with cards, grids, and mobile-friendly components.

Tech: React.js, JavaScript, Bootstrap 5, REST API.
